

Nomination of Authorised Representatives or Advocates

This form can be used to nominate authorised representatives or advocates for a Comsource account.

Full Authority Representative

A full authority representative can deal with us on your behalf as if they are you. This type of representative can make requests (including but not limited to) connection of new services, disconnection of existing services, entering into new contracts and changing account details.

Limited Authority Representative

A limited authority representative can deal with us on your behalf but cannot make significant changes to your services. This type of representative can request basic changes to your services that do not incur additional charges, report a fault (and agree to a potential incorrect call out fee) and make billing enquiries and changes (such as amending the billing address, method and direct debit details).

Advocate

An advocate (usually a third party, such as an IT consultant/provider) can deal with us on your behalf but cannot make changes to your services or account unless you agree.

Nomination Details

Business Name	
Account Number	

First Name	Surname	Date of Birth or Password	Representative Type

Name (primary account contact)	
Signature	
Date
